SERGIO ARAGONÉS MARGINALS XL

Many people say it's the little things that matter most — and we certainly agree...at least as far as Sergio Aragones' marginal cartoons are concerned! (Although we do have a soft spot for that delightful little Danny DeVito, too!) However, we also believe in filling our pages...which is why we're excited to showcase them in the same full size that Sergio submits them! But Danny, we like you just the way you are!
